

Hamburger Recycling

# RECYCLE TOGETHER

**WE GIVE WASTE A NEW LIFE,  
THE WAY NATURE TAUGHT US!**

**WE CALL IT RECYCLING. THIS IS WHAT WE BELIEVE IN!**

**We trust the idea that pollution is a growing phenomenon caused by the complexity of various packaging materials: paper, cardboard, plastic, glass and metals and that the solution for slowing up this trend is recycling.**

Hamburger Recycling Romania, member of Prinzhorn Holding Group, has already become a trusted member of the Romanian waste management and recycling market, managing to collect and recycle important amounts of paper and cardboard waste (100.000 tons/ year) also plastic waste (2.000 tons/year) bringing serious contribution to keep a clean environment and reducing the consume of natural resources.

We are developing our recycling capacity by extending our activities on glass and wood. In order to ensure a clean future for the following generations, it is important to protect the nature.

Through everything that we do, we contribute maintaining a clean environment in present and for the future to develop environmental consciousness and responsibility of people by helping them understand their obligations regarding the waste they produce from everyday life.

Through our partnership, the development of your business and the care for the environment complement each other. Our company offers high quality services, knowledge and logistic support for waste management. We provide our clients from industry, trade, services and agriculture flexible services adapted to their needs.

We are also offering our partners from waste management companies, a co-operation model that can ensure a sustainable and successful business.

OUR SERVICE

according to  
your **needs!**

Hamburger Recycling Romania offers an efficient and a safe management of your recycling materials. Our services are based on a flexible collection made in the same day or based on an agreed schedule.

On your demand, our colleagues can provide recyclable waste sorting and in this way we can provide you with high efficiency reducing your waste management costs.

We provide you various types of containers as well as the equipment and technology necessary to organize the temporary storage of the waste.

Hamburger Recycling Romania is a trustworthy international company providing safe services, guaranteed payment focusing on long term relationship with our partners.

We rely on trust using a performant and precise electronic scale. We ensure accuracy of weighing of your waste, providing scale tickets for each shipping.

Our partners benefit from all our support regarding legal requirements documentation and reporting towards state authorities in all waste related topics.
